Revealing the True State of the Nation

Harvard's Charles M. Lieber holds the U.S. Patent for using 5G radiation to vibrate corona virus particles from preset nanotubule containers.

Nanotechnology Weaponized to Deliver Viruses

Patriots for Truth

Change one word (drug to [Corona]virus) in this paper and this delivery system becomes a bioweapon.

Harvard Pilgrims Society professor-surrogate exploited like Zuckerberg and the other Silicon Valley stooges to weaponize nanotechnology to deliver viruses and other weaponized pathogens via 5G (boil the water in the nanotube with 5G milliwave-lengths and it will release its toxic payload, see above); is this what happened in Wuhan, China?
